World Safety Organization
National Office for Nigeria

The **World Safety Awards (WoSAwards or WoSA)** is a prestigious global recognition Network that celebrates and honors outstanding achievements in Health, Safety, Security, Environment, Sustainability and Emergency Response Readiness (**HSES & ERR**) across industries and borders, bringing together policymakers, regulators, experts, and all levels of stakeholders to drive meaningful conversations on advancing global SafERR awareness, fostering collaboration and progress.

Purpose of the WoSA:

According to the International Labor Organization (ILO), occupational accidents and diseases cause:

- **2.7 million** fatalities annually
- **374 million** non-fatal injuries and illnesses
- **264 million** people affected by work-related stress, depression, and anxiety
- **\$3.94 trillion** estimated losses annually in global economic.

With the world as our catchment, our **HSES & ERR** crafted solutions and campaigns over the years, have proven effective, truncating these negative statistics, **bringing them back to Zero (0)**, through our SafERR (Safety and Emergency Response Ready) Global Networks activities.

We therefore, **Recognize, Showcase and Celebrate Individuals, Organizations, and Groups** that are helping to **Make The Difference (MTD)** of bringing them back to **Zero Globally**, in every form, it represents; while maintaining a **SafERR & Healthier World**.

This is where the **World Safety Awards (WoSAwards or WoSA)** – a **Global HSES Excellence Award**, becomes indispensable, as a pivotal driver of our crafted solutions and **SafERR Global Action: No One Left Behind Campaign (2026 – 2030)**.

Like the phrase: “What Gets Measured, Gets Celebrated”. By extension: “What Gets Celebrated, Gets Repeated” Over and Over Again. This is the multiplier effect of the World Safety Awards.

Your attendance, participation, sponsorship and pledge to the furtherance of **HSES & ERR** is not just a moral obligation, but a deliberate life and business choice, fostering productivity, abating losses, and guaranteeing sustainability for the entire globe.

We congratulate and welcome you onboard.

Yours in Service,
